

California OES Weather Threat Briefing

Monday, April 12, 2021
9:00 AM PDT

Day 1 (Monday): Gusty conditions will prevail across the southern California mountains once again today and tonight, leading to locally elevated fire weather conditions. Some areas of dense fog are also expected across coastal areas of southern California today and tonight.

National Weather Service

Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

04/12/21 - 04/18/21

Monday-Sunday

- Gusty winds of 30-50 mph are expected over the Sierra and southern California through midweek, strongest on Tuesday, with locally elevated fire weather conditions. Some gusts to 60+ mph are possible over the Mojave Desert on Tuesday.
- Areas of dense fog expected each night and morning through Wednesday across coastal southern California, with a few sprinkles or some very light rain possible at times
- Much cooler conditions over coastal southern California today, and for much of the state Tuesday and Wednesday, with the exception of the southern deserts where some heat impacts will continue due to very warm temperatures
- Some light snow is possible over the Sierra Tuesday and Wednesday, though any accumulation looks minimal
- Dry conditions with warming temperatures expected for late week into next weekend
